

Day	Numeracy
Monday	<p>Learning Intention: I can use my knowledge of multiplication to create a game.</p> <p>Activity: Use recycling, pieces of paper/card or any old items in your house to create a multiplication game!</p> <p>It can focus on a times table or be mixed multiplication questions! The choice is yours! You will need to write out rules to go with your game and decide how many players it will be for.</p> <p>Here is an example for inspiration:</p> <p>You might have a lot of bottle tops from juice bottle or milk cartons, these could be used to make a snap inspired game. Some bottle tops could have the number sentence and others have the answers!</p> 
Tuesday	<p>Starter: 45, 367 and 4623. Choose a number and write down as many ways you can think of to make the number!</p> <p>Activity: Continue with making your multiplication game! If you finished it yesterday, have a good playing it!</p>
Wednesday	<p>Learning Intention: I can use mental strategies to solve problems.</p> <p>Activity: Choose an option from the following activities.</p> <p>Mild:</p>

Mental Maths

Read the problems and add the answer in your head.

1. Add together 40p and 30p.
2. What is the total of 15 and 23?
3. Lauren was given some money for her birthday. Her brother gave her £1.50 and her grandma gave her £5. How much did she get in total?
4. Omar collects 50 bus tickets and 25 train tickets. How many tickets does Omar have in total?
5. Caroline has 2 bags of apples. One bag has 8 apples and the other bag has 7 green apples. How many apples does she have in total?
6. What is the sum of 38 and 20?
7. Luigi buys two chocolate bars. Caramel Snap costs 62p and a Fudge Chunk costs 33p. How much did he spend in total?
8. A teacher gives out 17 pencils on Tuesday and 18 on Wednesday. How many pencils did she give out in total?
9. How much is 62p plus 34p?
10. Two sacks of potatoes were delivered to a shop. One weighed 25kg and the other weighed 26kg. How much did they weigh in total?
